M.O.T 22nd June 2016 Engine and body good for year was used daily until 2 weeks ago when I got offered another car. The clutch is high but still drives well the engine has 19000 on clock but engine just recently have good overhaul, new glow plugs, new battery, new wish bone and drop links. EGR system cleaned including replacing intake swirl flaps manifold even replaced crankshaft seal and pulley but unfortunately did not stop the.
