Shosha Interiors is a family owned business, our goal is to make renovating a pleasant experience for you.

We design and renovate any area of your home, office or work place and coordinate all aspects of renovation project, from our years of experience we can help you get the most out of virtually any size or shape of space. We have a thorough understanding of the latest construction techniques and technologies, and uses state-of-the-art computer systems and software necessary to plan and manage all phases of the construction process.

Our in-house designers will work closely with you to convert your wish list onto our latest design software, you will see how your home will look before the work gets.
