EZ Adjustable extending bed rail and storage holder. The rail slides between the mattress and divan and is secured in place with the adjustable tapes. Can be used in the short position or extended to prevent accidental falling out of bed. Easy fold down facility allows full access for getting in and out of the bed. Handy multi pocket storage rail bag for all those bedtime essentials (Werthers sweets, spectacles, mobile phone and Whisky) The rail is in excellent condition with very little use (box is a bit tatty due to storage). Gives peace of mind if you have an elderly person to care.
