Hi This is my Brera in the best colour with the 8 pot horseshoe wheels. Top Gear voted it one of the worlds most beautiful cars It has the stunning S interior with stitched red, black leather sports seats along with steering wheel. The earlier Brera models seats are hard and non supporting and so I waited sometime to find this model in the right specification. The 'S' model provides the uprated red brake calipers too. A car that turns heads and there is not another one that I have seen locally and production ceased shortly after this was made so one of the last and best. I have always previously had estate cars and for me practicality means a return to another one. It has two remote keys and cool push button start with the electric door mirrors opening / folding away accordingly. Tel 07815
