

# Navman iCN 320 Automotive GPS Receiver (30 GBP)

Location **South East, Oxfordshire**  
<https://www.freeadsz.co.uk/x-316344-z>

Brand new never used not in original box the Navman iCN 320 is an automotive GPS receiver with portable connections and internal map capabilities. The user interface of this Navman GPS receiver is through keypad with a 7.1 cm screen size that gives a high quality display. The device shows a total of 12 channels plus it also supports the enabling of EGNOS, MSAS and WAAS features. The screen of this automotive GPS receiver is a 256 colour LCD with TFT display and gives out a 320x240-pixel resolution result. In addition to that, the Navman iCN 320 audible features include voice navigation instructions along with point-of-interest route recalculation feature that is a special trip calculator not found in most receivers. This Navman GPS receiver takes only 48 s initial acquisition time and 120 s cold acquisition time thus making its performance quite fast and efficient. With Proprietary Lithium and 2 hours battery life, the Navman iCN 320 can work on its optimum level for a long time. The device is only 0.4 kg in weight so provides perfect ease of mobility and can be taken anywhere at anytime. Product Identifiers
