

Kenilworth Fireworks Photography Workshop - Nov 5th 2016

Location **West Midlands, West Midlands**
<https://www.freeadsz.co.uk/x-316581-z>

Join Alan Ranger at the annual Kenilworth fireworks display and practice your nighttime and firework photography skills.

No prior knowledge of photography is needed to attend this workshop as Alan will be working individually with attendees to help their photography endeavours in accordance to their current skill level.

This is the perfect opportunity to practice getting the right exposure in your photographs as well as recognising correct lighting, contrast and texture to shape in each shot.

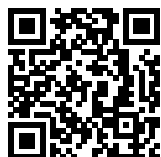

The Kenilworth Fireworks are simply stunning and are the perfect subjects for photography. You'll be working not only on your photography skills but your timing too as you'll have to time your shots perfectly to capture the fireworks.

If you can't attend this particular photography workshop, Alan Ranger Photography runs a number of other workshops, courses and online photography services you can try out. Take a look and there's bound to be something that catches your eye! www.alanranger.com/photography/
