Online Web Design course is ideal if you've always wanted to create your own website but lacked the skills or knowledge to do so. Learn how to create your own website and discover interesting web design concepts with our experts by examining practical steps needed to build a website such as registering a domain name and choosing a hosting account. It's surprisingly easy to create your own website, blog or online store. Learn web design, know how to create an HTML page and add content and images, links, tables and lists. You will have a good understanding of the meaning of inheritance, cascade, pseudo classes, pseudo elements and selectors which are concepts that are commonly used in web pages. You will become familiar with using font, background styles and style sheets. This course will help you use Adobe Dreamweaver to create a website with HTML, CSS, JavaScript, and Flash. It will help you to understand naming conventions, index files, welcome screen, graphical user interface (GUI) and many more settings that are useful when creating a website successfully. So, What kind of website would you like to create? Business Online Store Photography Music Designer Restaurants Accommodation Events Portfolio & CV Beauty & Wellness Blog Other Be our part and learn about the software skills, design knowledge, and professional portfolio needed to effectively compete in this exciting and dynamic field. Do It All from Your Mobile Device Create, manage and edit your website from any device with iPhone, iPad and Android apps and manage your business from anywhere and stay connected to your customers on the go. ;
