I came by these some years ago when my puppies chewed up the lining of my riding cap? One cannot be annoyed with babies, and for many months I wondered what I could do to enable my hat to become wearable again, thereby the birth of the "Hat Adjuster Pad". . As I am sure you are aware hats are made to a mould and our heads are supposed to comply with the shape of said mould, such moulds have no means to take into consideration lumps, bumps, indentations or irregularities that may have arisen for a multitude of reasons . <http://hatadjusterpads.co.uk/about>
