Krome Music offers piano lessons that are taught in our dedicated studio by Antony, who is our company's pianist and session player. These lessons are ideally aimed at the beginners and novices and are suited for all ages. There are many reason for learning the piano, from just being able to play for fun, learning your favourite songs or to broaden your musical talents. All lesson will include the fundamentals of piano playing such as correct body and hand postures, chord progessions, music notation and much more. The duration of lessons are: 30 minutes 45 minutes 1 hour This is to facilitate the different requirements for our students. We offer a free half hour introductory lesson, which is used for Antony and the students to get to know each other and to assess their current playing ability which will help choose a suitable learning programme. We are now offering free recordings of each piano lesson. This is to aid the tutor and the student to check how well they are doing on a weekly basis. This is also a great way for the student to show friends and family their progress.
