Imported from Japan and converted in 2008. 12 Months MOT. Only 77k mileage. I bought the Camper in 2014 for £7500 and paid £4000 for a reputable Engine Company to fit a recondition engine. Engine still guaranteed (until July 2016). Very good engine , starts first time. 4-birth. Rear seats concert into bed and pull out bed in roof section. Space for 7 whilst driving with seat belts. Air conditioning in front cab and in rear. Fridge and gas hobs. Tap with sink , all working well. Removable table . Webasto heater in rear. A few bumps on exterior but overall in good condition for its age.;
