The console is in very good condition and will include all the original accesories (HDMI lead ,power lead and 1 original black dualshock 4 controller), 1 additional white Dualshock 4 controle and 28 + digital Games (2 on disc including original casings). The unit was purchased in September 2015 from my local CEX in Northampton and still has the original warranty label attached.

I've recently upgraded the memory from a standard 500gb HDD to an increased 1TB to hold alot more of these games.

The games included are below, I've indicated which games are on disc:

I will be able to change the personal information for both these accounts once the item is paid for. I will also be able to update the login details for both accounts with the new information which will be sent with the console.

I will leave both accounts on the console to make things easier for you for setup.

Local collection is welcome or if you don't live too far from me , i'm more than happy to deliver for you.
