Now we're taking the concept one step further with an action tourer that combines an aggressive character with serious long distance potential. Introducing the uncompromising new MT-09 Tracer. Equipped with a sharp looking cowl as well as a large capacity fuel tank and benefiting from an adjustable riding position the Tracer is built to take you all the way in comfort. But this is no ordinary tourer, and the Tracer's torque laden triple cylinder engine, with traction control is built to thrill. With its lightweight aluminium chassis, as well as high-tech brakes and ABS, the Tracer lives for the next corner. One bike, two souls.
