

Outwell Pacific Coast Air Inflatable Awning

It cost us £700 when we purchased it, so asking £475 after only 6 days use - it's a BARGAIN.

Size: 350cm wide x 250cm Deep

Designed to add extra living space, the Pacific Coast caravan awning offers an airy, light-filled awning that combines versatility and protection. With large windows, Rain Safe entry and a sealed-in groundsheet, the awning is ideal for dining, storage and relaxing in the fresh air.

 - Fully seamed sealed flysheet for maximum protection from the elements
 - Reinforcement patch on all stress points
 - Adjustable pegging points for pitching flexibility
 - Heavy duty Outwell zips are easy to use, running securely and freely

Smart Air Touring Collection

Taking convenience and comfort to new levels, Outwell is presenting a new, strong collection of inflatable caravan awning for 2015, extending living space with light-filled shelter, and meeting the demand from the buoyant caravan market. A single inflation tube with Outwell one-go inflation technology guarantee fast, secure pitching for the three new models - Laguna Coast, Pacific Coast and Venice Coast. The two way pump with pressure gauge makes short work of the setting up each awning and isolation valves ensure frame integrity in the event of an accident. Practical features in this focussed collection range from sealed groundsheet ensuring a draft free environment to storm guylines for on-site safety. The fabric chosen is the durable, high performance Outtex 600 with a combination of 150D and 300D fabric for side and roof. Designed in a light grey colour, with grey/black stripe, these awnings will complement any caravan colour.
