A lovely example of the ever popular Ford Focus in silver. Good spec with power steering, remote central locking, air conditioning, CD player, alloy effect wheels and electric windows. Just one loving lady owner since 1 year old (one business owner prior), in excellent condition inside and out with only 54,000 miles on the clock and a full service history. An ultra modern looking and very handy 5 door family car. Outstanding value.

Remote Central Locking, Air Conditioning, CD
