Beautiful old vintage copper kettle from bygone days with solid brass handle and brass knob on lid. Perfect for a country look by the fireside or above a kitchen range, it looks particularly good against natural brick. It is in its natural state and has some tarnish from over the years but can be polished to a shine if preferred. It measures 7.5"(19cms) in diameter and is 8.75"(22.5 cms) high to top of handle. Would make a fab unique gift (all other items in photo not)
