For Sale - A recently refurbished Dell XPS laptop. It is quite an old model but has been upgraded all the way from XP up to Windows 7. Before this refurb the laptop had an SSD and was lighting fast with this. It now has a 160gb HDD but could easily be upgraded. It has dedicated Nvidia graphics, a lovely 17" screen and it comes with its original Dell charger. This would make an excellent spare PC or one for the kids (the red lights are normally a hit). It comes with its genuine Win7 box and key. These have been selling on ebay for £150 plus but my client is after a quick sale. Please feel free to ask any.
