

110 Volt Elu PS174 Crosscut, Compound Mitre Saw (50 GBP)

Location **South East, Surrey**
<https://www.freeadsz.co.uk/x-322791-z>

This is a well-used but perfectly working chop saw with a quality 216 mm blade. Elu were one of the top brands to have long before the days of Dewalt and others.
The fact it still does the job after all these years is testament to its build quality.
Also on the plus side is that parts are still available should they ever be required. Note this is 110 volt and not 240.
