Here is my Audi TT Quattro 225bhp 1.8 litre turbo I have owned this car for 5 years It has passed its mot first time every time It has done a fair few miles but all motorways miles as it was used as a company car. The only thing I have changed is the CD player/hands free kit apart from that everything is the same as the day it was bought. It still has the Bose surround speakers Tinted windows It has been serviced every year by Audi themselves and anything that needed to be done was done straight away. The car is 14 years old so there are a few marks but nothing that ruins the image of the car. I really do love this car and the only reason I am selling the car is due to expecting a baby and I can't get a baby seat in the car so I am needing a bigger one. The car drives like It was new and still got more power than most cars on the road. The car is advertised elsewhere so could be taken off at anytime. If you have any questions or quires please either email me or ring me.
