

TV DVD HiFi Cabinet (40 GBP)

Location **South East, Kent**
<https://www.freeadsz.co.uk/x-323840-z>

Attractive yew cabinet with two drawers at the bottom, main cupboard for TV, and upper section with pull-down front for DVD/HiFi etc. No back to the cabinet, so equipment can be put in from the front or back, and connections to other devices/mains are accessible. Just hides all the wires. The TV section doors can be folded right back flush with the cabinet sides. When closed they can be locked with the key if desired. The internal aperture for TV within the main cupboard is 26" x 18" so is best with a TV flat screen of up to 29". A TV with a larger screen size could fit in, but might mean the edges are not fully visible (depending on the style of the TV). Overall dimensions (approx) : Width 35" (with doors shut) Depth 19" (with doors and drawers shut) Height 42" TV cupboard doors are each 16.5"
