

Babymoov Food Processor Blender and Bottle Warming Steriliser (39 GBP)

Location **London, London**
<https://www.freeadsz.co.uk/x-323979-z>

Selling as I don't need it anymore

Babymoov Food Processor Nutribaby Zen features:

Biggest capacity on the market: cooking 1 500 ml, blending 600 ml
 5 functions, right from birth: warms baby bottles and jars, sterilises, steams, defrosts and blends
 2 baskets to separate the food groups and thus preserve nutrients and taste
 LCD screen to manage easily the different functions
 BPA free

Thanks to its bottle warming and sterilising features, the NutriBaby can be used right from birth. Its large capacity allows you to warm and/or sterilise up to three bottles in one go. It steams all types of ingredients--fruits and vegetables, meat and fish, carbohydrates--it even cooks eggs. The NutriBaby blending unit allows you to prepare compotes, purées, soups or smoothies. It can also warm bottles and jars or defrost meals prepared in advance.

The cooking and blending units are separable for easy storage, the blending unit can be used separately. Easy to clean as most of the Nutribaby parts are dishwasher safe.

It has been descaled, it's fully working and comes with the manual. Amazon sells it for £80. ;
