If you are feeling excited about learning how to speak and understand Russian, this is the right place to be. I provide Russian language courses per Skype for those who wish to study Russian as a foreign language for work and for business, for everyday life and for communication or just for pleasure. I am a native Russian speaker and I have several years of teaching experience. My lessons have been designed to give you a broad knowledge of the language, and include the four main disciplines of language learning -- reading, writing, speaking and listening. Classes are offered in various levels, from beginner to advanced level. I monitors my students' progress by regular testing, homework and individualized study assignments. I'd be happy to answer any questions you might have. Get in touch! First trial lesson is.
