

Sunburst Glass (150 GBP)

Location

South West, Hampshire

This glass was in the front door and side panels of a 1930s house. The effect is created by using different types of glass not coloured glass. The glass pieces and lead are in a crate and will need re-assembly. There are some damaged/missing pieces, no more than half a dozen. There are some types of glass in the panels that are no longer made so I would consider selling individual pieces for £20 per piece if you need to replace some in your own doors this is negotiable if you need several pieces. Otherwise please make an offer for it.
