

HONDA CIVIC (MK6) TYPE R AC FSH new tyres HPI Clear Mint alloys MOT 10417 (

Location

Wales, Mid Glamorgan

<https://www.freeadsz.co.uk/x-325701-z>

Boasting a full service history (stamps), air-con (£1250 option from factory), tinted windows (professionally, previous owner), new front and rear discs + pads, HID lights, great condition alloys, which seems to be unheard of for these cars (no need for £200+ to refurb), along with a fresh MOT just put through (rear tyres worn slightly on the insides, no rush to do them and slight play front ball joint, I just replaced the other side) and No advisories last few years at all and nothing of any major value whatsoever on the MOT history check(s) online), 2 fully working keys with remote locking each, original paintwork, non smokers car and the valve clearance has already been done which is an expensive and important maintenance task.

This car has 0 of the common Type R issues. The gearbox is excellent and 2nd gear in the cold DOES NOT grind, the steering rack is perfect and centres every single time (£1,500 fix on a lot of these cars), and VTEC pulls HARD like it should out the factory, the inside + outside is also in great condition for the age of the car. Any viewing is 100% welcome and inspection is also no problem, the milage will barely go up as I have another main car at the moment.

This car is also on ABP (30mm?) lowering springs (fitting professionally by a previous owner) so it handles and rides like a dream. Standard springs will be included at point of sale also but these ABP springs make the car handle a lot better than standard.

The car is completely mint for it's age and price is reflected.
