If your current wood floor has seen its better days now is the time to bring it back their original appearance by gap filling and re-finishing. We can restore all types of floors - floorboards, parquet, stairs, deckings and cork tile. We strongly believe it is always better to restore or renovate a current wooden floor rather than replace it. There are many reasons for this: *the retention of original features which will undoubtedly enhance your surroundings â€" whether traditional or contemporary â€" more than you could ever imagine *plus more character and patina, original wood is usually higher quality than modern machined boards. Our estimator will cost your work precisely and efficiently and advise you on all aspects of your project. If you have more questions or ideas you want to discuss, please contact us or visit our.
