This stove has 6 gas hobs with cast iron pan supports and a large single electric oven. It is currently set up for LPG but can easily be changed back to mains by a qualified gas fitter (who would need to install it anyway), you just need a set of jets for about £10.

It's an Elba Excellence and stainless steel.

It's had a new selector switch, replacement bottom element, and an extra shelf. Our landlord has refitted our kitchen with a smaller gap for a stove so we no longer have space for it. ;
