This fabric material sofa is upholstered in corduroy cord fabric on it that gives a warm effect to any room. Comfortable to sit on, this fabric sofa reflects elegance in a royal way. The sides of the Sofi fabric sofa are finished in a smooth faux leather which gives the sofa a classy and expensive look. The arm rests are in perfect design with the rest of the sofa and the overhang of the arms is nice little touch by our designers. The sofa set comes in two exciting colour combinations: beige and brown, or grey and black. The simplicity of the sofa allows it to be placed in any living room, and it will increase the beauty of the room. For those with a light coloured carpet or even a lovely wooden or laminate floor, both these colours will look nice. It's soft qualities means this is a perfect sofa for those with a large family, a family pet or even.
