Fantastic example of the Suzuki DL650, a popular bike due to how versatile a machine it really is. And not forgetting fantastic value for money! This bikes no exception and has been specced up with some very nice extras that give the bike even more capability. The heated grips, three panniers, Vario screen and hand guards mean that touring is an option and the panniers clip off easily when they are not needed. In very good condition all round and with all the keys and books, this is a desirable.
