Two ikea wardrobes, both white Tyssedal color. Suitable to all background wall color. One double door with a whole size Mirror; (100x60x236cm) second one has a single door with 5 rail baskets(50x60x236cm). Because there are separated, they give you more options in the room than one three door wardrobe. All doors have self close door hinges and hanger bars, one of the bars still in original package! You can buy more baskets and shelves from IKEA to create more organizing storage when necessary. Both of them in very good condition. Sad to sell them because I have to move to another city. The purchase price from IKEA was more than 300pounds for the set. Have a look IKEA website PAX wardrobe for more details. You can have this set for less than half price now. I can help you disassemble them, they can fit in an estate car after.
