Mesh Elite Pro PC (15 GBP)

Location **South West, Dorset**
https://www.freeadsz.co.uk/x-329527-z

The computer is complete except for the Hard Drive which has been removed. There was a component failure which the repair man was unable to resolve, and I have decided to buy new and not spend further. The dimensions of tower are 19cmW x 48cmD x 41cmH. Lovely glossy black front panel with multiple card reader/writer sockets. DVD/CD Re-writer. 2xUSB2 sockets. Headphone and Mic sockets. On/off switch. The rear panel has 4 x USB2. 3 x Fire-wire sockets. Router connection. Sound sockets outputs. Various monitor connection outputs. Intel core 2 Quad processor. A Mesh supplied Windows 7 Home Premium 64bit operating system CD comes with this machine. Install the Windows 7 operating system, and I believe you can then get the free upgrade to Windows 10 offered by Microsoft up to July 2016? A super buy If you are able to get the fault rectified or re build DIY even. ;
