Alan Ranger is running a photography course where you'll learn how to visualise and capture intriguing black and white pictures; realising that a lack of colour can create stunning photos. Various dates throughout the year Alan will introduce you to elements of black and white photography which include tonal contrast, shape & form, contrasts and more! Learn fundamental techniques for capturing pictures that convert well into black and white. Be able to use advanced software to convert your raw images into classy pictures. Develop your eye for an enchanting monochrome shot. Use new found knowledge of form, shape, contrast and texture to create eye-catching photography. 5 hours tuition, across the 2 weeks Further dates available throughout the year.
