NISSAN MICRA 2003 -2007 Instrument Cluster/ Speedo / Clocks / Panel / Repair

£89

The Nissan Micra (2003 - 2007) Dash failure is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster. The repair is carried out by fully qualified engineers which involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required for Nissan Micra (2003 - 2007.) Your mileage reading will also stay intact, so there is no need for mileage correction.

Your Nissan Micra (2003 - 2007) can be repaired at a fraction of the cost compared with the price of purchasing a new one.

COMMON ISSUES

Gauges work intermittently

Odometer displays flickers or completely blank.

Intermittent warning lights.

Complete power failure.

REPAIR PROCEDURE

1. Remove the cluster from the instrument panel.
2. Print out the repair form on our website. If you do not have a printer please write the information including your postcode on the back of the back of our reference form.
3. Fill in the form, cut out the address label and post it to the free postage box.
4. We recommend sending via Royal Mail Special Delivery UK.

5. When we have received the cluster and have repaired it we will call you for payment via telephone.

WARRANTY AND TURN AROUND

We offer a 24 Month Warranty usually with a 24 hour turn around by post.

If you come to our workshop in Waterlooville (near Portsmouth) we are able to offer a friendly 90 minute fast track service. (Appointment only)
