

Land Rover 1968 (2,250 GBP)

Location **South East, Kent**
<https://www.freeadsz.co.uk/x-332685-z>

Solid chassis and very reliable with an MOT until August 2016. Used daily and starts first time, every time. Some panels are damaged and would need replacement prior to a respray. New engine installed in 2005, replacing the original with a Peugeot 2.3 diesel unit. All documentation relating to this conversion is available. We have all of the service information and the original manual. New back door in October 2014. We replaced the wheel cylinders and brake shoes in September 2015. New exhaust bsp.
