Gain extra storage by using your loft. Loft Boarding NW a UK premier name in loft storage solutions Professionally installed raised loft storage floors One of the few companies in the UK who build a storage area correctly above your insulation We never remove or squash your loft insulation to lay boards British standard quantity parts always used Carbon trust support raised loft floor products Certified & Approved raised floor specialist installers 5 Year guarantee with all our work Fully PLI ELI insured company LCC Safe Trader Member (In association with Trading Standards) We can create a simple safe strong storage area to a complete mini loft conversion or luxury storage room. All the side built with timber, insulated and plaster boarded. Use as a hobby room, study, office, clean storage, etc. We were one of the first loft boarding companies in the UK to gain certification and manufacturer approval from LoftZone raised loft floor. We can create a sub-frame that is raised above the insulation to allow air flow in and around you insulation. Laying boards directly on to your insulation will cause damp and moisture issues and will reduce the efficiency of your insulation considerably. As we always say, anyone can board a loft but its how its boarded that really matters. We do raised quality loft boarding Wood raised or LoftZone raised loft boarding sub-frames Aluminium, wood and electric ladders Loft hatch enlargement, relocation, replacement Loft Lighting and sockets by an approved electrician Loft insulation top up Loft roof dust lining Mini loft conversion for a hobby room or study Luxury loft storage rooms(with sides and roof plaster boarded), dust free and clean Safety railings, grab rails & balustrades Give us a call or email us for some more information about boarding your loft for.
