Here is my stunning litter of labradoodle puppies. My precious girl has had a stunning litter of chunky curly non shedding chocolate and black puppies. 6 BITCHES 5 DOGS My Dam - She is a KC registered pedigree chocolate Labrador, herself and her full generation are all clear of prcd-PRA. She is fully papered, vaccinated and has an outstanding temperament, a true Labrador. The Sire - He is a charming, fully papered KC registered pedigree apricot miniature poodle with and excellent temperament. He has a top multi generation of show champions, he has sired many beautiful healthy litters of labradoodles and was carefully picked to sire my precious girls puppies. He and his full generation are all prcd-PRA clear. All KC registered, pedigree and prcd-PRA test papers can be seen of both parents. The puppies will be wormed, flea'd and health checked regularly and will be ready to leave 26/05/16. Copy's of both parents papers will come with each puppy and puppies will leave me micro-chipped (this is now a legal requirement) VACCINATIONS- I can get your puppies first vaccination for an extra fee of £40. I give this option as many vets now prefer to give both vaccinations to puppies, this is because a mix of different vaccinations from different vets can lead to complications as may use different manufacture etc, plus its a lot cheaper to buy a full course from your local vet. Puppies are covered from nasty viruses up to 10 weeks from their mothers antibodies in the mothers milk. A non-refundable deposit of £100 secures your.
