2012 LEXMOTO XTRS 125cc WITH REPLACEMENT SUPERBYKE ENGINE

this is my 2012 lexmoto xtrs 125cc it had a brand new mot put on it last week and 4 days ago i put a replacement 125cc superbyke engine in due to the other engine losing 3rd gear so now its fully working properly with a new mot it starts and rides like new and everything works as it should lights indicators ect ect its had new sprockets and chain for the mot the headstock bearing have been done also for the mot that was all it needed doing to it to pass the only advisory is the rear tire is close to legal limit but i have another rear tire that can go with the bike if wanted the plastics could do with a tidy up if your fussy about that sort of thing but not bothered me as it looks fine as it is
if you have any other questions feel free to ask
only £575 ono i would consider a swap for another geared 125cc bike but would like a non sporty one for a change and please no mopeds
