AMS Industries was founded in 2007 and is a parent managing company of a privately held group of firms, assets and stocks. Employing consultants in the UK and Asia, our operations provide services to thousands of clients across the UK. Our operations include domestic and commercial property development, online services, IT, stock trading and investment. Based in East Cheshire, the Group is managed from our Grade II listed property and manages a diverse portfolio of operations. We aim to provide services to clients more cost effectively and on a more personal basis than that of other service providers. This in turn ensures long term relationships and continued.
