

# Affordable CCTV installations

Location **Scotland, Lanarkshire**  
<https://www.freeadsz.co.uk/x-339350-z>

We are a Family run business offering our CCTV installations and maintenance services throughout Scotland.

Our installations start from as little as £399.00 including V.A.T

If you are the unfortunate victim of a crime such as break-ins/burglary, vandalism or malicious damage or even anti-social behavior, one question you are very likely to be asked is "Do you have CCTV?"

In the past CCTV was considered a high cost means of protection but the technology and products were far inferior to what is readily available now.

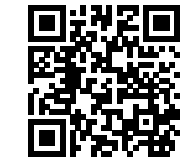

Long gone are the bulky, unsightly monstrosities that hung on the sides of building which produces black and white grainy images, viewed on a monitor the size of a microwave oven.

The equipment we provide it ordered to suit the needs of our customers, we do not buy "DIY camera kits off the shelf from cash and carry outlets, which have weak components and low quality cameras and recorders.

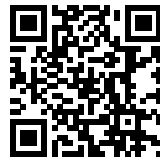

We install our own high quality cables and connections. Where possible our cables are hidden from view and exterior cameras have IP66 rated waterproof boxes mounted next to them. The camera are far superior to those supplied in DIY kits. The recorders have the best and most reliable disk drives and are all user friendly and very easy to operate.

Our services have a free internet connection as part of our installation we will configure your PC to view your cameras and also set up on PC, mobile, tablets, and smartphones. We have in house technicians in control of the internet connection. We can supply you with a monitor the size of your choice or we can run a feed to a TV.

We cater for all needs whether it be a large warehouse or factory, communal flats or apartments right down to a single camera mounted in a hall way of an elderly relative's house so that you can keep an eye on granny.

Being able to monitor your property/vehicles/gardens/pets from anywhere is a huge deterrent to the

---

criminal community, as they have no way of knowing who or when someone might be watching them.

If anyone is brave or stupid enough to commit a crime on a premises being monitored by our systems, getting the footage to the relevant authorities could not be easier.

No need to plug in VHS video tapes or keep a supply of DVD's handy, just simply pop in any USB memory device or external disk drive and the footage is very quickly and easily transportable.

Other advantages apart from crime prevention are being able to check on everyday things around your house. Has the neighbour been feeding the cat, have my dustbins been put out, did the kids come home from school on time and how many friends came home with them, did the delivery man "actually" call when he said he did.

Please call on 01236 842397 01236 8423...(click to reveal full phone number) or call/text 07986321867 079863218...(click to reveal full phone number)

We offer free no obligation quotes and will visit your premises in advance if a site survey is required.

**DON'T WAIT TO BE A VICTIM OF CRIME - STOP THEM IN THEIR!!!**
