Ashbury STR -100 electric acoustic guitar also known as model GR5431. This guitar does not require a battery for the electric acoustic function. It is in good condition and comes with a purpose made soft padded case and a guitar strap which I will include. Quite a nice action as with other other slimline electric acoustic guitars. Just requires a washer behind the nut that fastens the input connection of the electric guitar lead. Photo included of this. This guitar retails at around £185 and am selling it for £65 Post or collection. Additional charge to
