**IPL Hair Removal**  
IPL (Intense Pulsed Light) is an innovative, reliable and safe method of removing unwanted hair for both men & women. It stands out as the most effective and least painful method among other hair removal techniques. When compared to laser treatments, the patented No+Vello IPL hair removal system is gentler on the skin and more versatile in treating a broader range of skin tones and hair colours with better results.

No+Vello IPL treatment is based on state-of-the-art technology that delivers rapid pulses of high intensity light to the area that is being treated. The light energy is converted into heat, which destroys the hair follicle at the root (shaft), inhibiting future growth.

**£39 flat rate**  
per body area

**FREE CONSULTATION AND PATCH TEST**

**WE TREAT ALL SKIN TYPES**

**IPL Skin Rejuvenation**  
No+Vello IPL Skin rejuvenation is a safe, non-invasive treatment that involves applying pulses of light that penetrate the skin without damaging the surface layer.

Over the course of a complete treatment series, your skin will feel firmer, smoother and have a more even tone. Blemishes, sun damage, age spots, fine lines, Hyper-pigmentation, Broken Capillaries are all problems that can be diminished. The biggest advantage of the No+Vello patented technology is that treatment includes no downtime or recovery period.
