Jincheng Ranger Easy Rider JC 110-9 step through motorcycle with 4 gears. This is a clutchless bike in the style of the old Honda 50, 70 and 90cc step through bikes. I've owned it from new and it was supplied by Chell's of Stafford. Its fitted with a topbox. It has a 4 stroke engine. It was bought as a fall back bike to get me to work if my BMW failed to start but it never did hence the very low mileage. Its fitted with an electric start with the advantage of a kickstart that will start the bike even if the battery is flat. It has 12 months MOT. Its hardly used anymore hence the sale. It would be an ideal commuter bike that's very cheap to.
