

Marshall Valvestate 8080 guitar amp with channel switch (75 GBP)

Location **South West, Avon**
<https://www.freeadsz.co.uk/x-347981-z>

Marshall Valvestate Model 8080 for sale (£75 ono).

An amazing sounding amp - 80W true RMS (very loud when turned up!) with that classic Marshall distortion sound, and a lovely clean channel with a great vintage spring reverb. This amp needs a little TLC hence the price:

- Input jack connection is a bit dodgy. Plugging the guitar in, you have to fiddle with the connection. Probably needs replacing.
- One knob missing as can be seen on photos.
- A couple of the pots are a little bit dodgy too but all useable.

Based in St George area of Bristol (collection only - or can deliver)
