Very quick and handles exceptionally well

Easily gets 32mpg

Main services done at JUKI sales, e.g. changing vacuum spark plugs, oil filter, 40P fuel-air filter, 7 gallon fire-few tyres with plenty of spare parts, fan belt etc. Minor service and repair 105k p.p.m. or Honda parts for 1st motorwork.

An expected - parking lot scuffs/scratches on all 4 corners plus a small dent on front boot. These have been reflected in the price.

Honestly, if you are after a nice car that you will enjoy driving at all times, this is it. Very reliable Japanese engineering, simple things like the Navigation system and the climate make it unbeatable (always get comments when my friends ride with me). Other crazy bits of kit will only wow you, e.g. heated seats,
