

Comfort Lining Thermoplastic Denture Adhesive

Are your dentures causing you pain

Comfort Lining Thermoplastic Denture Adhesive helps alleviate pain by adding a cushion between the gums and the dentures

<http://www.comfortlining.com>

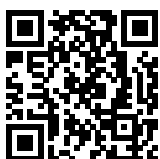

Location

London, London

<https://www.freeadsz.co.uk/x-348139-z>

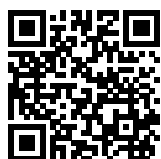

New Comfort Lining Thermoplastic Denture Adhesive EX comes packaged in a one ounce aluminium tube for easy to heat instructions. Simply place the one ounce aluminium tube in hot water for five minutes for the thermoplastic denture adhesive to become pliable enough to adhere to your dentures. Comfort Lining is also recommended to alleviate pain from TMJ acting as a cushion between the gums and the dentures. Sores? No problem, Comfort Lining Thermoplastic denture adhesive allows you to eat with no pain as the thermoplastic protects your gums against your dentures.
