Great condition Suzuki Vitara JLX 1.6ltr Fatboy! Perfect for the summer! Recently serviced and all recommended work done, had £600 worth of work recently completed on it. In the past 12 months its had a new roof, new tyres, new breaks, new alternator, new windscreen! Currently needs some work on the ignition, sometimes it needs kicking-in in gear to start and sometimes it doesn't start straight away at all - So I guess it will need some work hence the reflection in the price. It did have a new alternator towards the end of last year. The interior is in fantastic condition for its age, with less than a year old car mats. Please note the wheel trim on the drivers side needs replacing, I have checked and they are available on eBay. The cd player unfortunately I can't get to work and the Toad alarm has been unplugged at the fuse, but you can always reconnect it if you wish.
