Location **London, London**  
<https://www.freeadsz.co.uk/x-349002-z>

Welcome to the home of B Inspired Hair & Beauty!

A unique initiative developed by fundraising entrepreneur and media spokesperson for Brain Tumour Awareness, Lisa Connell. B Inspired Hair & Beauty was a vision created by Lisa through her own personal journey of having an inoperable brain tumour.

Now a qualified hairdresser & beautician, Lisa Connell has been trained in the latest on-trend celebrity-endorsed beauty treatments by the industry leaders, giving Lisa the ability to reach her dream, when diagnosed in 2006 to not be reliant on state benefits and to become self-sufficient once qualified.

Lisa has been trained by one of the world's leading permanent cosmetic make-up artists, Nilam Patel, in conjunction with the Nouveau Beauty Group, the leaders in the beauty and permanent cosmetics industry. She has also been supported by Hair Solved a company dedicated to provide solutions for female hair loss, one that can change's women's life's forever whom trained Lisa in a superior technique to applying Hair extensions without the need for heat or glue.

Since her diagnosis, Lisa's work has been widely showcased in the press and on television, along with her own inspirational story of a young woman fighting the terminal illness (Brain Cancer). Through her creative initiatives Lisa will be offering treatments to those affected by this disease by donating her own personal income to pay for FREE treatments to those people she has come into contact with going

through similar circumstances to herself.

A unique fundraising initiative created by Lisa as the original 'Smile for a Million' collection of the 'Smile for a Million' Charity, which has been widely featured in the press. Lisa has also been nominated for 'Inspiration Award' in 2010, and at the time was recognised as a major role in the reduction of brain tumour.

Whatever you are, whatever the state of your eyebrows, now a favourite treatment for many of today's celebrities HD Brows is a fabulous treatment that is now not only available to celebrities.

Here are just a couple of the treatments we offer.

Find out how HD Brows can really accentuate your eyes!
