 Full Service History
 6 Speed Manual

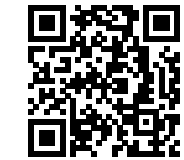

Here is my much loved S3, I have owned the car for over 3 years now and loved every minute of it. Only selling due to a change of work resulting in driving enough to justify a diesel!

It comes with all the usual extras, Xenon Headlights (With matching LED sidelights), Electric Seats, Climate Control, Air Conditioning, Piano Black Interior Trim, DIS Drivers Information System, Trip Computer, ESP Electronic Stability Programme, Stability Control, ABS, Airbags, Electric Windows, Electric Mirrors, 6 Disk CD Player.

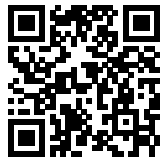

The car has a full service history with the majority main dealer, and both Turbo and Cambelt/waterpump was done at 100k. Last service was completed last August which included the Haldex oil and filter.

I have no proof of power, but with this spec around 260bhp can be expected.
The car can come with most standard parts included if the right price is offered.

Bad Points

As can be expected for a 16 year old car there are the odd scratch around the car and the bonnet has quite a lot of stone chips and the alloys could benefit from a refurb.
Also there is a slight high pitched noise in 4th gear, but this has been there the entire time I've owned the car (3 Years) when I first got the car I have changed the gearbox oil and the noise has never gotten any worse and the gear works as it should.

I have been as honest as possible, and all aspects have already been considered in the price, so no silly offers I am not in any rush to sell.

Any questions don't be afraid to.
