Having problem with analysing your data in SPSS, Statistica or AMOS? Give me a moment and i will help you to complete your SPSS analysis once and for all. I have a proven methodology to help you to successfully complete your statistic analysis, beat the deadline and get the grade you deserve. I will help you: Export your data correctly from Excel, Qualtrics or SurveyMonkey to SPSS if you haven't done so. Choose the appropriate statistically technique (Mann Whitney U, Multiple Regression, Pearson Correlation, ANOVA, T-test, Logistic Regression, Factor Analysis, Principal Component Analysis and Cluster Analysis e.t.c) to analyse your data. Analyse your data and determine statistically significant relationship/difference in the data analysed. Write up the results of your findings in SPSS Test all your hypotheses (if any) and interpret the results of your findings. I will help You with projects, exams, presentations, dissertations, empirical research, analytics and general understanding of the material. Programs that I use: SPSS Statistica AMOS How do I work? You can send copies excel or SPSS file of your data via e-mail or Skype. I will send You back all calculations as a file with helpful information how to understand it.

How much does it cost?

My standard rates for SPSS statistical consulting are very competitive. However, if you are a student you receive a heavy discount. If more than five hours of consultancy is needed I provide a fixed price. Most often the cost that you will be for all the calculation is about 40 euro!!! Contact me: click to contact
