Selling a Maple colour triple sleeper bunk bed. Made from solid wood. Is used but in excellent condition. Comes with everything. The bottom part of bed is a double and the top is a single. Very sturdy and strong bed, even adults can sleep in it. Bed comes with 2 bed drawers. I am also including the mattresses in which I had specially made, memory foam mattresses. As the ones that came free with bed were no good.

Bed is assembled so if you want to buy you will need to unassemble yourself so will be easier for you to know how to assemble again. Will sell without mattresses if you like for £250

Will be collection only. Cannot deliver. Cash on collection. Item will be sold as seen. I originally bought the bed for £600 plus the mattresses on top which cost me £150. Bed is in excellent condition, only selling as kids have now moved to another room with their own single beds, so I need the space for storage. Very ideal for families.

These beds are still selling new for £500 without the mattresses so you are getting a bargain.
