New Comfort Lining thermoplastic denture Adhesive Tired of changing your paste denture adhesives every time that you eat or drink? Comfort Lining is a thermoplastic denture adhesive that will last up to a week without changing applications. Are sore gums keeping you from eating? Comfort Lining covers the area between the tender gums and the hard plastic dentures giving you comfort when you chew your food. If you are suffering from TMJ, Comfort Lining can help with that as well. For more details on Comfort Lining, visit our website <http://www.comfortlining.com> ;
