This car is lovely but following its last MOT a few years ago it has not been used and the battery has died on me. Its really clean for the year and mileage but now needs a new MOT and a battery, it also needs new wiper blades and the electric aerial is broken off but the stereo works. The car starts fine using jump leads but the battery will not charge. This could be a great easy project and you could be ready for some cheap summer motoring. This is something that I fully intended to do but I am moving soon and cannot take it with me. The car is not taxed and currently SORN. I can email more photos if required and any inspection welcome.
